

POSITION

We are looking for a Full Stack .NET Developer to join our team, working remotely from LATAM. This role is ideal for engineers with 6+ years of experience who are comfortable building scalable backend services and modern frontend applications.

You will work on high-impact projects using modern .NET (6/7/8) and a contemporary frontend framework such as Angular, React, or Vue.

A bonus to having the above experience would be having knowledge/experience in any of the following: PostgreSQL, Redis, AWS, Docker, Git, and Knowledge of architecture design, RESTful APIs.

RESPONSIBILITIES

- Design, develop, and maintain scalable full-stack applications
- Build and consume RESTful APIs using ASP.NET Core
- Develop responsive and performant frontend applications
- Collaborate with product, design, and engineering teams to deliver features
- Write clean, maintainable, and testable code
- Implement unit and integration tests
- Participate in code reviews and contribute to technical decisions
- Build and maintain CI/CD pipelines and deployment processes
- Monitor and troubleshoot production systems

QUALIFICATIONS

- C1/C2 English Level
- Strong CS fundamentals with 6+ years in professional software engineering experience
- Strong experience with .NET Core / ASP.NET Core
- Recent experience with at least one modern frontend framework (Angular, React, or Vue)
- Solid understanding of REST APIs and web architecture
- Experience with relational databases (SQL Server, PostgreSQL) and/or NoSQL
- Familiarity with cloud environments (AWS, GCP, or Azure)
- Experience with Docker and CI/CD pipelines
- Strong understanding of software engineering best practices (testing, clean code, design patterns)

DESIRED CHARACTERISTICS

- Familiarity with cloud service providers (Google Cloud, AWS)

- BA/BS in computer science or similar major
- Experience with microservices or distributed systems
- Knowledge of Clean Architecture / DDD / Hexagonal Architecture
- Strong problem-solving and analytical skills
- Ability to work independently and in collaborative environments
- Curiosity and willingness to learn new technologies
- Strong communication skills

WORKING CONDITIONS & BENEFITS

- Opportunity to work with and learn from a great team of talented, multi-national professionals
- Close collaboration with our US-based clients and their teams
- Regular new projects and opportunities to work with the latest tech stacks and project management approaches
- An inspiring environment with a focus on the personal and professional development of each team member
- Budget and hours allocated to personal development
- Professional coaching sessions to learn how to work with different personality types
- Quarterly in-person cluster dinners and / or virtual social events
- Special occasion gifts: welcome swag, birthday gift, tenure recognition and others
